Stepping through the custom-carved double entry doors of this meticulously crafted 2,400 sq.ft block-built, two-story three bedroom three bathroom home you are greeted by ceramic-tiled floors that span the entirety of the house. The staircase, adorned with wrought iron handrails, leads to soaring vaulted hardwood ceilings throughout the residence with cedar tablia and recessed lighting, creating an atmosphere of grandeur and space. Fully screened windows and sliding doors invite gentle cooling breezes and panoramic views into every room. The master suite occupying the upper level with its en-suite bathroom features a tiled rain shower and double hand basins. This sanctuary boasts a covered balcony overlooking the property offering breathtaking ocean views and memorable tranquil sunsets. The open-plan recessed great room seamlessly integrates living and dining areas beneath a two-story vaulted hardwood ceiling. Sliding screened glass double doors lead to the arched covered patio areas which encircle the house, providing unobstructed ocean and valley views. There are two guest bedrooms, one of which is currently utilized as an office with access to a half bath across the hallway. The principal guest bedroom with en-suite bathroom opens to the garden and covered patio through glass sliding doors. The kitchen, with views to the ocean, is a true chef's delight, equipped with

stainless appliances, cedar cabinets, and ceramic stone countertops. An adjacent laundry room provides plumbing for two washers and dryers and offers convenient access to the elevated side patio and side door. An outstanding and unique feature of this tranquil estate is its transformation into a private nature reserve and botanical gardens. There is also a spring and creek with two small waterfalls. Beyond being a home, Casa Los Jardines is a sanctuary for a plethora of wildlife. Imagine daily encounters with toucans, parrots, the iconic Blue Morphos, resident howler and capuchin monkeys, and the occasional visit from sloths, tyra, jacarundi, and more. It's a harmonious coexistence with nature, offering a unique and unparalleled living experience.
