After an easy 3 minute drive from the highway on the well-maintained La Union road, you will arrive at the beautifully landscaped entrance and enter through the motorized gate. There is ample parking on the left and, to the right a private path leads you to the *bonus* casita which is located next to a lovely grove of bamboo. The casita can be renovated to serve as a owners suite while renting the main home, an art studio, kids bungalow or other creative purposes. A concrete drive leads you up a small incline to more parking in front of the main house.

The first thing you will notice when walking onto the large covered balcony leading to the main house are the stunning views. The glowing sunsets, beautiful blue of the Pacific Ocean and the sweeping mountains that surround the town of Uvita are in full view from the covered veranda and the extra large, custom deck that spills out around the pool creates a perfect area to enjoy and entertain. Plenty of room for the entire family to have space, relax and soak up the finest elements that the Costa Ballena provides.

There is plenty of counter space – a layout that is perfect for families or hosting large groups. Conveniently located right off the kitchen is the laundry facility and pantry, where the battery back-up system to ensure the lights and internet are always working.

A door between the laundry room and kitchen conveniently leads out to the parking area and extra kitchen prep area. Down the hall you will find 4 bedrooms all divided for privacy. Two full bathrooms, one with a double vanity, that separates 3 of the bedrooms. The master is very spacious, with large slider doors opening to a private area of the veranda and pool deck.
